## RA17 ACHIEVER SERIES EFFICIENCIES UP TO: 17 SEER / 13 EER

### Quiet and Efficient

These new air conditioners are engineered to perform both efficiently and quietly, delivering comfort you can rely on when you need it most.

### Increased Comfort

The Two-Stage Copeland Scroll™ UltraTech™ compressor provides more precise temperature control and humidity levels for increased comfort.

### Exceptional Quality and Reliability

Our Achiever Series includes features that help fight corrosion, reduce leaks and enhance the overall strength of your air conditioner, so you can be assured in the way it performs.

RELY ON RUUD.™

## We Thought of Everything... And Then Some

The Ruud® Achiever® Series Air Conditioners were developed using the 360°+1 design philosophy, which means every detail of the product is meticulously evaluated from every angle. This philosophy considers the work that goes into installing and servicing Ruud products, as well as how to deliver the very best homeowner experience. And then Ruud takes it a step further. That's 360°+1. And that's why you can rely on your Ruud Air Conditioning unit to bring you and your family years of comfort.

## Count on Staying Cool and Comfortable

A smart, efficient design makes the Ruud Achiever Series Air Conditioner one of your best options for staying cool inside. Each new unit includes a generous list of features that work together to bring you quiet, efficient and reliable indoor comfort.

### Reliable and legendary performance

The ① Two-Stage Copeland Scroll™ UltraTech™ compressor makes the Achiever Series as efficient as it is durable. A Single-Stage unit runs at one speed, but the two-stage RA17 modulates between two speeds—high and medium. It will operate on medium speed most of the time, providing more precise temperatures and lower humidity while also reducing energy use. The system only operates on high when necessary during peak, warm weather conditions. The compressor also has 70% fewer moving parts—which means you get a unit that's more efficient and more reliable. The ② optimized fan orifice contributes to quieter operation, optimal airflow and better overall performance. Simply put, you get efficient comfort that lasts a very long time.

### A quieter and more durable unit

It starts with the smart new ③ composite base pan. The design helps eliminate corrosion and adds to quieter performance. Extensive UV testing was done to ensure that the base pan stays looking new for years to come. The improved refrigerant tubing design also contributes to quieter, more reliable operation. For added strength, ④ curved louver panels and ⑤ rugged corner posts on the exterior do an excellent job of protecting the inside.

### Curb appeal

Looks are not lost on the new Achiever Series. Ruud Air Conditioners look as good as they operate. Modern cabinet aesthetics allow your unit to put its best face forward, and a powder coat paint system provides a lasting professional finish.

### Fast and accurate installation and maintenance

Your savings start with the installation of your new unit. Achiever Series Air Conditioners are built to go in fast and easy. The control box is also easy to access, and a roomy diagnostic service window means maintenance calls go quickly, saving you time and money.

## Benefits At-A-Glance

### Cooling Efficiency:

Up to 17 SEER / 13 EER

### Sound Level:

Features like a smart new composite base pan contribute to quieter operation

### Available Sizes:

2, 3, 4 and 5 ton

### Compressor:

Two-Stage Copeland Scroll Ultra Tech compressor for enhanced comfort and greater efficiency

### Limited Warranty<sup>2</sup>:

Conditional parts – 10 years
